"I can't say enough for how Raving has created a very unique conference agenda as well as the opportunity to apply for the Tribal Scholarship and Mentorship Program. I am very honored to have participated in the program.

Each Raving Partner, conference speaker, and attending vendor provided me with ample time to network and ask questions covering important marketing topics facing us in the gaming industry. It's so greatly appreciated to have interpersonal face-to-face communications with so many talented people during and continuing well on after the conference."
